LIFESTYLE COLLECTION

WELCOME TO THE VOLVO
LIFESTYLE COLLECTION.
DESIGNED AROUND YOUR LIFE.

Being Swedes, we have a slightly different attitude to design. Before our car designers even put their pens to paper, we start with the person who's going to use the car and ask ourselves "How can we make this person's life better, easier and more comfortable?" This people-centric approach is essential for the Scandinavian design philosophy we embrace at Volvo, and it applies naturally to everything else we make. That is especially true of the unique accessories you will find in our Volvo Cars Lifestyle Collection. Here, our designers have created and selected a range of beautiful, well-made products that embody the soul of Volvo design. This is where function goes hand-in-hand with form, and craftsmanship melds with first-class materials to deliver an experience of modern, everyday luxury. Be it at home, in the office or on your travels, we have designed the Volvo Cars Lifestyle Collection to add a dash of contemporary Scandinavian flair to your life.

It's very much Volvo, and very much you.

STELTON TO GO

We've always liked Stelton, the Danish purveyors of tableware. Featuring clean, uncluttered lines, high-end materials and a simple design, which belies its clever practicality, Stelton shares our mindset. The To Go thermo mug is a beautiful example: fill it with your favourite hot or cold drink and close the screw top lid. Then, when you're thirsty, just click on the centre of the lid to drink from your mug without risking any spillages. Best of all, because of the simple round shape, you can drink from any side. The To Go comes in stainless steel, black and white – as well as a blue exclusive to Volvo. 17.5 cm tall, 8.5 cm diameter, 0.4l volume.
